Header Brief text

Whether you're a PCM, PCB or PCMB student, we have a plan that fits your needs.

About HackMCQs (change HackMCQ to HackMCQs):

1. At HackMCQs, we are on a mission to revolutionise the blueprint of competitive preparation for competitive exams.
2. **“Free will to practice”**
We carve the way for students to their **free will to practice and prepare**.
3. **"We don't compete; we partner"**
We empower institutions with technology and help them provide a complete package to their students, so they don't feel left out in the world full of competition.

About HackMCQ

We are on a mission to empower students with the knowledge and confidence to excel in competitive exams and achieve their dreams.

Our Story:

Our Story

HackMCQ was born from a simple yet powerful idea: to make high - quality exam preparation accessible to every students, everywhere. Our founder, a veteran educator, saw firsthand the challenges students faced with traditional, one - size - fits - all learning methods.

We envisioned a platform that could personalize the learning journey, adapt to individual needs, and provide actionable insights to help students conquer their weaknesses. With a passionate team of educators and tech innovators, we built HackMCQ from the ground up to be the smartest, most effective study partner for competitive exam aspirants.

Initially:

- HackMCQs was born from a simple yet powerful idea: to make high-quality, customizable exam preparation accessible to every student, everywhere.
- Our founders, 19-year-old NEET aspirant Bireswar Chattopadhyay and highly qualified doctor Dr. Titash Moulik, saw firsthand the challenges students faced with traditional competitive exam preparation. They recognized a fundamental flaw in the education system: a lack of personalized preparation method that every aspiring student truly needed.
- Driven by a shared vision, they assembled a team of young, bright minds—inexperienced and untrained, yet fueled by a fierce determination to make a difference and prove themselves. Together, this team forged a solution: HackMCQs.

- HackMCQs emerged not just as a product, but as the most reliable, smartest, and most effective practice partner. It became the only go-to tool that helps students master the art of preparation itself, turning the daunting task of "cracking the exam" into a manageable and inspiring journey.
- HackMCQs helps students to crack the preparation, not fancy exams.

Later on: -

A new chapter began:

- Our founders identified a critical challenge faced by local institutions in the modern era of education.
- The traditional methods of lecturing, doubt-solving, practicing, and managing hundreds of students were becoming a burden for these institutions in the new ed-tech landscape.
- We couldn't simply ignore this problem. Instead, we rose to the occasion, creating a cross-platform solution for institutions and their students. This technology empowers these institutions, making the test-conducting process easier and more reliable.
- We provide institutions with the "free will" to conduct tests as they see fit, giving them complete oversight to track the performance and progress of every single student.
- We don't compete; we partner.

What Drives Us:

To create a world where every aspiring student unlocks their full potential through personalized, customisable, innovative, and accessible education.

Our Mission:

To provide an adaptive, data-driven, customisable and personalized practicing platform that empowers students to prepare with their complete potential for competitive exams.

Our Vision:

To become the most trusted and effective AI- powered practice solution for exam preparation globally, making quality customisable practice platform accessible to all.

What drives us

Inspiring the Future of Learning

To create a world where every student unlocks their full potential through personalized, innovative, and accessible education

Our Mission

To provide an adaptive, data - driven, and personalized learning platform that empower students to achieve their full academic potential in competitive exams.

Our Vision

To become the most trusted and effective AI- powered learning solution for exam preparation globally, making quality education accessible to all.
